

## Elevator Pitch :

Hello, I'm Lourdu Virgin Maria P, a postgraduate student pursuing an M.Sc. in Statistics. I have a keen interest in data analysis and statistical modeling, and I'm skilled in using Python, R, SPSS, and Excel for data-driven tasks. Currently, I'm working on a loan prediction project where I analyze customer profiles to forecast loan defaults, which is enhancing my understanding of machine learning and practical data interpretation. I am also interning at RASA.AI Institute of Analytics, where I'm further equipping my skills and gaining valuable hands-on experience. I'm enthusiastic about applying my knowledge in a professional environment, contributing to insightful analytics, and continuing to grow in this field. Beyond academics, I enjoy participating in extracurricular activities and exploring new areas, which help me stay enthusiastic and focused.
